

Dunwoody Village
MEMORANDUM

March 24, 2020

TO: ALL RESIDENTS
FROM: Kathy Barton
Director of Operations

RE: **CONTINUED UPDATE: COVID-19 PROTOCOL FOR DUNWOODY VILLAGE**

Last evening, we were informed that we have 2 cases of COVID-19 in the apartment building E300 section. Once we were informed, we sent out a smart notice to all residents and employees. At the time we only had testing back for one case, but later we found that the second person also tested positive. We also had a conference call with Dr. Lawrence on how to manage the situation and he reported our cases to the County Department of Health. Currently all residents on the E300 hallway are being monitored daily for signs and symptoms and are quarantined to their homes for 14 days. The residents that tested positive are being interviewed to see who they may have come into contact with so that we can monitor them also. The Environmental service department cleaned all of the common areas on the whole 3rd floor last night and we have roped off the E300 hallway to restrict usage. 4 employees had direct contact with these residents and have also been quarantined for 14 days and will be monitored each day for signs and symptoms.

This morning we contacted the County Department of Health and they gave us information as to what protocols to put in place. The Biggest one – **SOCIAL DISTANCING AND SHELTER IN PLACE**. Shelter in place means staying in your apartment and not going out or visiting other residents in person. We know how difficult this is – but it is the best way to reduce the number of people that may get sick. I have attached some education from the Department of Health for you to read. We really would like for you to stay in your apartment as much as possible. Do not go to the store – get things delivered or use the marketplace. If there is something you really need – have family get it for you and drop it off at the front desk and we can get it delivered. If there is something you really need and have no way to get it, please contact Sherry Smyth or me and we will do our best to get what you need. Please stop visiting each other in apartments – call on the phone or facetime. It really is not worth taking the chance of contracting this virus.

It is also very important that if you start to exhibit cold symptoms – cough, sore throat, congestion or fever that you contact Health and Wellness immediately!

I know this is not the ideal situation, but I also want to tell you to not worry or panic. I know this is easy to say, but worrying and panicking does not help you or your health. Try to find some relaxing activities, get some fresh air (you can walk on the campus or hang out on your balcony area), take a nap. Whatever makes you feel better. Try to relax!

SOME OTHER UPDATES:

Menus were delivered yesterday for you to fill out. Please have them back by **Wednesday, March 25th at 3pm. You can leave them in your mail slot and the Mailman will pick them up!** We have had many requests for some fresh fruit, so you will see fruit added a few times a week to your bags. Starting with the next set of menus, we will add a fruit type salad option. We will also be adding rolls and butter to your bags.

As of Wednesday, March 25, 2020 we will change the hours of the commissary food shopping to 9:30-11:30 from Dining Services. Please contact Jhron or a Dining team member at 610-359-4433 to place your order and it will get delivered to your room. I have attached a list of items for sale along with pricing. We will keep adding things as we go along.

We have had a few residents have issues with getting audio on channel 1970. Please check the channel and make sure you are able to get sound. If you are not, please contact Brian Worthington in Facilities and he will have someone take a look at it. We want to be sure you are able to enjoy the entertainment that is being provided!

If you have any questions or feel that we have missed anything, please contact Kathy Barton at 610-359-4428 or kbarton@dunwoody.org or Sherry Smyth 610-359-4427 or ssmyth@dunwoody.org and we will be sure to add to future communications.

Updates will continue to be provided as necessary and are posted on our website: www.dunwoody.org if your family is interested in following this information.

Please report any symptoms of fever with sore throat, congestion, and cough to Health & Wellness.

PLEASE EXERCISE VIGILANCE WITH HAND WASHING! We understand that these circumstances are difficult and appreciate your cooperation.

CORONAVIRUS COVID-19

CHESTER COUNTY HEALTH DEPARTMENT

BE INFORMED

LEARN THE FACTS, SHARE THE FACTS, STOP THE FEAR

SOCIAL ↔ DISTANCING

Means reducing close contact between people to stop or slow the spread of a disease. Including:

Closing
Schools & Business

Postponing Large
Events/ Gatherings

Limiting Errands

Postponing play-dates,
sleep-overs, & parties

Staying Home

Why is Social Distancing Important?

It does not eliminate the virus but makes it easier to control. Social distancing reduces the number of infections and spreads them out over a longer period of time.

Resulting in:

- Fewer infections & fewer deaths
- Protecting the healthcare system & the ability to treat the virus

Number of Daily Cases

Social Distancing is a Social Responsibility

Choosing to stay home as much as possible, inconvenient as it may seem, will ultimately impact the trajectory of this outbreak.

Even if you are healthy, it is still very important.

- It protects the vulnerable.
- It reduces the pressure felt by our hospitals, providers, and first-responders.

We are all in this together. You can Help.

Even if you think you are not sick, social distancing is the type of considerate decision that can help slow the spread of Coronavirus.

You can help protect our grandparents, our families, parents, and children, and the vulnerable.

You may even save someone's life.
