This is just a small reminder that even though changes are going to start happening to open up the state, the Dunwoody Community will be **very slow** in making changes to the current restrictions. Dr. Lawrence reminded us again this week that our population is in the last phase of the plan, which may be months away. We hope to be able to allow more movement on the campus soon, but we still have active cases and until we don't, we will need to continue to shelter in place.

Thank you for working with us to keep everyone safe.

Enjoy the beautiful weather this weekend – get out and walk and get some fresh air! But please stay on campus!

### **Information for Care Center Residents and Families**

**Information for Independent Residents** Please report any symptoms of fever with sore throat, congestion, and cough to Health & Wellness. If you do not use a Dunwoody doctor, please let us know **immediately** if you are being tested or have tested positive.

**PLEASE EXERCISE VIGILANCE WITH HAND WASHING! We understand that these circumstances are difficult and appreciate your cooperation.**
