DAH Employees	0 cases – self-isolated at home
Employee Pending cases	0 case
COVID cases recovered–employee	14 cases

**We are retesting one of the care center residents that is positive to see if the virus has cleared.

All of the residents on the unit that had COVID cases will be retested at the end of the week to be sure we have not had any spread. We also had an employee return from work yesterday. We are making good progress! Keep doing what you are doing!

The Fuller account of deaths at care homes came out late yesterday and was in the paper today. Dunwoody did not make the paper, but we did want to let you know what was reported. The report has Dunwoody with 21 resident cases, 7 deaths. We have had 17 total cases - 14 care

center cases and 3 residential cases. 7 deaths is correct – 6 in the care center and 1 in residential. We have had 17 employees total. Brandon is working to get this corrected with the state.
