

January 27, 2022

Dear Residents, Staff and Families,

We are pleased to share that we have no residents who are COVID-19 positive, nor any residents currently quarantining due to exposure. We have 4 staff currently out due to COVID-19. All residents are expected to wear masks in common spaces through Sunday February 13th. We will review our policy and share any updates in the memo on February 10th. If you are enjoying a meal or drink in a dining room or at the bar, you may remove your mask. If you stand up from the dining table, if you are in line for food, or if you are seated in a common area, you are asked to kindly wear your mask. Please be respectful and compliant if staff remind you to wear your mask; they are being diligent in following our current policies and practices. Guests are welcome in the Village, but must complete our screening and wear masks as they move through common areas. In the Care Center, visitors must complete our screening and wear masks in both common areas and residents' rooms. We appreciate your partnership in keeping Dunwoody Village open and safe.

Masks

Residents must wear masks in all common areas until February 13th. See information above.

Inside the building, paint and ceiling grid are ongoing, as well as wood trim and ceramic tile. The first of the cabinets are being installed, as well as paneling in the kitchens. The plumber continues to work on permanent gas piping in order that the new rooftop mounted heating equipment can be started in coming months.
