

March 24, 2021

Dear Residents, Staff and Families,

Recruitment of staff continues to be challenging in every field and in every business across the country and across the world. That being said, the Dunwoody Human Resource Team and our leadership and management have done an amazing job with recruitment over the last 6 months. Dunwoody has a wonderful reputation; our staff and residents are friendly and supportive and our environment is warm and welcoming. All of this, along with quick response times in reviewing resumes and scheduling interviews has helped us to continue to attract and hire new team members in addition to retaining our current amazing team members!

Please join me in welcoming our newest Dunwoody staff members:

- Nursing Staff: Bency Alex, Kenyatta Gaymon, Susan Hewitt, Terri Mansell, and Ashley McCord
- Activities: Shanaya Faulk
- Dining: Nizar Abdellaoui, Devika Renjit, and John Spraglin
- Transportation: Gerald Ryan
- Environmental Services: Arthur Tarr

Dining

Special events are being planned for our Mother's Day Celebration. More information will be provided in next week's memo. Stay tuned!

Wheel Chair Transportation

The Transportation Department is happy to provide wheelchair transport for Residential Living Residents to Health & Wellness in emergency situations. They also assist Residents upon discharge from the Care Center back to their home. This service is available Monday through Friday during normal business hours.

Construction:

Work is still ongoing in both kitchens. Equipment is installed and connections and startups are progressing. Flooring is getting close to completion upstairs and is ongoing downstairs. Doors and hardware are ongoing. Final painting is ongoing, and the punch-list has started in some areas.

Best Regards,
Maureen
