Health & Wellness

A reminder that our new therapy provider, Functional Pathways, will begin services on April 1, 2025. Residents who are receiving outpatient therapy at this time are requested to obtain a new order from your physician which should specify the correct therapy discipline as well as the medical diagnosis appropriate for the treatment (ICD-10 code.) Example: "PT eval and treat order due to change in provider." Residential residents needing assistance with this should reach out to Health and Wellness.

On Wellness Wednesday, April 2nd, Carol Spears guest speaker from the Pennsylvania Senior Medicare Patrol (SMP) at CARIE, the Center for Advocacy for the Rights and Interests of Elders, will provide a presentation on Medicare Fraud at 3:00 p.m. in the Auditorium and on Channel 1970. Please join us!

WiFi Project

During the deployment of the Wireless Access Points, we discovered compatibility issues when trying to use a combination of the old and new hardware simultaneously. They are experiencing connectivity problems with the existing switches. The team reinstalled the old Wireless Access Points throughout the areas impacted thus far to get everyone back online ASAP. This reinstallation has been completed. We are working on a new plan for deployment which will be communicated to the community in the near future. We will also be sure to hold Town Hall meetings in the Auditorium to review the plan and lessons learned and to go over Q&A. Thank you for your patience and continued support on this initiative.

Putting Green

The final piece of the Putting Green project is expected to be completed in the next two weeks. This installation of the railing is needed for safety and code compliance. Once this is done, the Putting Green will be 100% complete.

Newspaper Delivery

As you are aware, there are ongoing issues with newspaper delivery. While newspaper delivery is not the responsibility of Dunwoody and is charged to each subscriber as part of your subscription services, we have reached out and will continue to reach out to attempt a solution.

Infection Control

No Residential residents have tested positive for flu or COVID at this time. Two Care Center residents have tested positive for COVID and are on quarantine and one staff member tested positive for COVID and is at home on isolation.

Best regards,
Maureen Casey
